PARAGON INKSTANDS

Something New in Inkstands

The Paragon Inkstands with sliding cover and pin cup top is the latest design of glass inkstands and is popular on account of the special and valuable features found in no other inkstand.

Paragon Sliding Covers—

- Do not have to take covers off to get at the ink.
- Always on the inkstand.
- Push back to get in.
- Push forward to close.
- Extra large well for ink.
- Pin cup on top each cover.

Special shape of opening, can use the largest pen made.

Easy to keep clean. Will not break like glass.

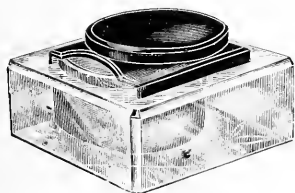

Handsome rubberoid covers.

Made black for black ink and red for red ink.

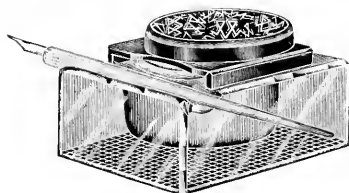

Nos. 150, 160 and 170 have the library inkstand pen grooves.

Nos. 200 and 240 solid glass, oblong shape.

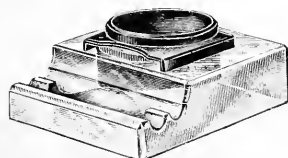

Size, $3 \times 3\frac{1}{2}$

No. 200.....Per dozen, \$3.60

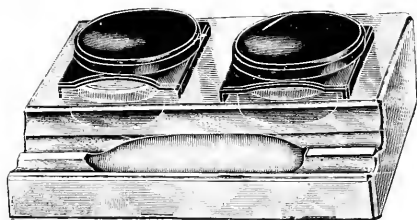

Size, $3\frac{1}{4} \times 2\frac{3}{4}$

No. 240.....Per dozen, \$3.60

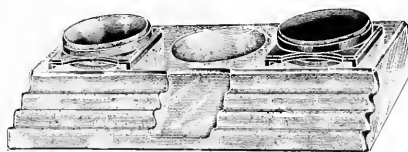

Size, 4×5

No. 150.....Per dozen, \$8.00

Size, $4\frac{1}{2} \times 6\frac{1}{2}$

No. 160.....Per dozen, \$14.00

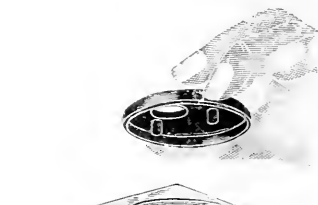

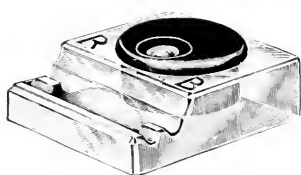

Size, $9\frac{1}{2} \times 5\frac{1}{2}$

No. 170.....Per dozen, \$15.00

A New Paragon Inkstand

A new style of Inkstand with two spaces for ink, one for red ink and one for black ink. All that is required is a slight move to the right for the black ink and to the left for the red ink. By setting the hole of the cover in the center of the stand closes it, thereby making it non-evaporating and dust-proof. It is a flat shape. This makes it hard to upset. It is also a sanitary inkstand as all parts can be easily removed and cleaned.

The stands are lettered on each side, R and B. This prevents any mix up as to ink wanted. These inkstands are fitted with handsome rubberoid covers.

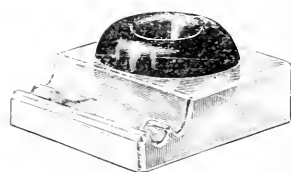

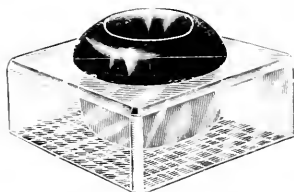

Size, 4 x 5

No. 180.....Per dozen, \$8.00

Paragon Inkstands

With Dome Tops

This line of Inkstands is an attractive line. They have an extra large well and the dome shape tops have a funnel shaped top which acts as a pen guide and also prevents evaporation. The dome tops are rubberoid finish and present a handsome appearance.

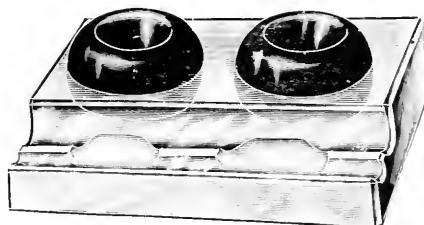

No. 210 3 inches square.....Per dozen, \$3.50

No. 225 3½ inches square.....Per dozen, \$5.00

Size, 4 x 5

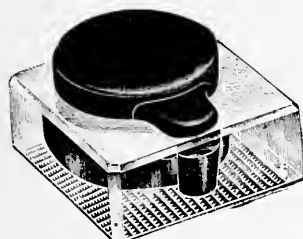

No. 235.....Per dozen, \$7.00

Size, 5 x 7

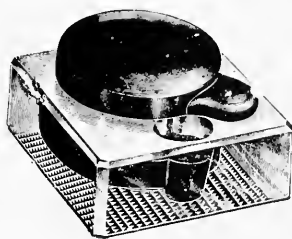

No. 245.....Per dozen, \$12.00

Paragon Inkstands

Closed.

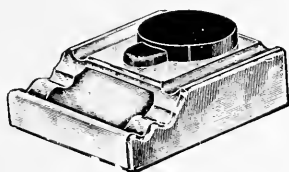

No. 100 Paragon, size 3 x 3 inches, height 1 1/2 inches. Per dozen, \$3.00

Open.

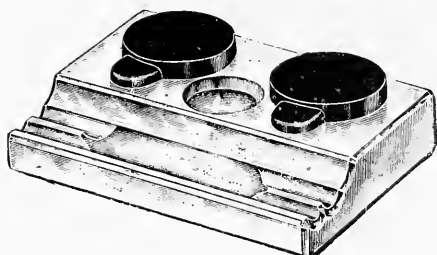

Paragon Inkstands with lock stop covers is the best of revolving covers. The lock stop keeps the cover from swinging all around the Inkstand. The Inkwell is one large oblong shape and allows the point of the pen to reach the ink easily.

The most popular and best selling line of low-height Inkstands on the market to-day. Effective in keeping ink clean and liquid. Easy to clean and fill.

Size, 4 x 5 1/2.

It is sanitary, the parts consisting of glass reservoir and bulb and black rubberoid roller.

Has no felt or sponge to gum up and harden over night. It is always ready for use.

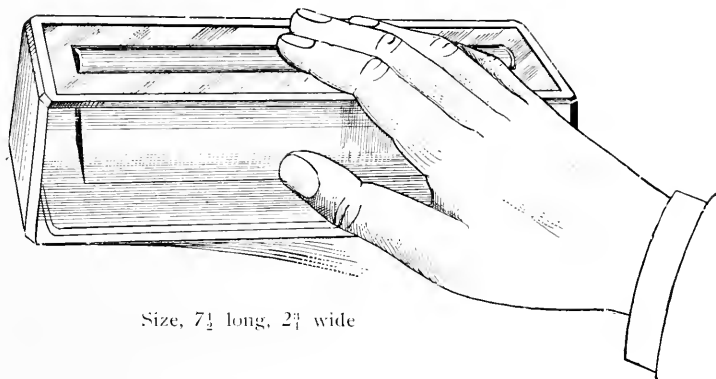

The rubber being made of rubberoid and not glass, allows it to revolve easily thereby saving time.

The roller always picks up the right amount of water for either sealing envelopes or moistening stamps.

It does away with the sponge and cup and can be used for dampening the fingers to count money or circulars.

Ideal Bristle Brush for Typewriters

We show herewith picture of a washable China bristle typewriter brush which the manufacturers claim will clean every part of the machine but the type, and which, under ordinary conditions, will last for two years.

The brush, it will be observed, tapers down to a small point, which enables the operator to insert it in any opening in the machine through which the wire will pass. The bristles are non-breakable. They are sufficiently stiff to remove all the dust and erasings adhering to the machine as a result of the spreading of the oil in the bearings.

"Independent" Stylographic Pen

All Cuts Show Exact Size of Pens

This pen consists of a hard rubber holder, tapering to a round point, and writes as smoothly as a lead pencil. The point and needle of the pen are made of non-corrosive new process precious metal, and are not affected by the action of any kind of ink.

The pen holds sufficient ink to write 10,000 words, and does not leak or blot.

As it makes a line of uniform width at all times, it is unequaled for ruling purposes. It is specially adapted for manifolding with carbon sheets. Better than gold or steel pens.

Pens Nos. 1, 2, 3 and 4 are furnished in neat paper boxes. Each pen is accompanied with full directions, filler and cleaner.

Fine writing Independent stylos may be had by ordering them with a red ring.

Staple Machines

Hotchkiss No. 1

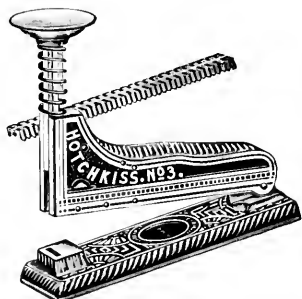

This automatic paper fastener uses a single strip on which there are 25 staples. These staples when inserted into the machine are automatically cut off and fed forward, accurately and without failure.

No. 1 Hotchkiss machine.....Per dozen, \$12.00

Staples for Hotchkiss No. 1.....Per 1,000, 30c.

Hotchkiss No. 3

The Hotchkiss No. 3 has been built to take the place of the Giant star machine, which was built with a large tail spring attachment. This is entirely done away with in the new machine, and special staples made for it, which are packed 1,000 in a box and are the same size as the old Giant staples. The new No. 3 has more than double the capacity of the Hotchkiss No. 1, and is absolutely guaranteed.

Hotchkiss No. 3.....Each, \$5.00

Staples for Hotchkiss No. 3....Per 1,000, \$.75

Hotchkiss No. 2

For fastening the equivalent of 50 sheets of ordinary paper.

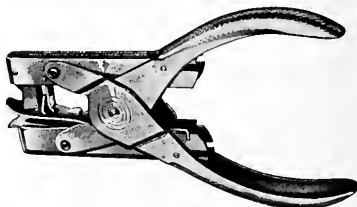

Directions for operating: To operate machine raise the lever, which also raises the top. This allows another staple to be fed forward. When pressing the lever down on the material to be fastened, it separates, drives and clinches the staple at one stroke. Always allow lever to fall back to its natural position.

For flat work only.

Yarger's Patent

Price\$25.00

No. 10 Improved Staple Binder

Complete with saddle and flat table.

Yarger's Patent

Price\$32.00

The best moderate priced binder for binding pamphlets or stitching calendars. Holds 200 staples at a charge, strung on metal rods, easily slipped into position. Staples can be inserted six inches from margin; are delivered and driven through the paper or calendar back and clinched. Only one adjustment—by means of a hand-screw, which elevates or depresses the clincher. Action is quick and simple, work neat and tight. All wearing parts are made of malleable steel, to prevent breakage. The capacity of this machine is from 2 sheets to 128 sheets of ordinary book paper, using six different sizes of staples.

Per 1,000.....25c.

This high grade machine admits of the use of six different sizes of staples, both flat and round wire, and holds 250 staples at a charge. It stitches through the fold and through the back from 2 to 64 sheets (flat staples), and from 2 to 32 sheets (round staples) of ordinary book or pamphlet paper, 11 inches from the margin. The staple case adjustment is far superior to any other machines—only one adjustment, and easily understood. The staples are mounted on metal tubes, neatly secured by a wire band, and are packed in boxes of 5,000 each.

“Erasit”

As the name signifies it is an eraser. Something new as a cleaner for pencil marks, charcoal drawing, dirt or finger marks.

It is a substitute for rubber erasers and does the work much better. It will not wear the surface of the finest paper, tracing cloth or any article on which “Erasit” is used.

The artist, designer, draughtsman and bookkeeper will find it better adapted to their needs than anything on the market.

Each size put up in handsome display boxes of one dozen each.

U. S. Standard Counterfeit Coin Detector

Position of scale when coin is counterfeit.

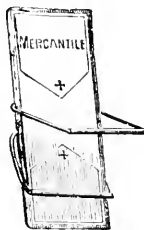

Position of scale when coin is genuine.

The simplest, best and most reliable on the market. Being less complicated and not liable to get out of order, it is far superior to all others.

It is a perfect scale, weighs with the nicest accuracy, and gives the exact thickness and diameter of all the principal U. S. gold and silver coins, viz., the silver dollar, half and quarter dollar; also the \$20, \$10, \$5, \$3, \$2½ and \$1 gold coins, thus detecting the counterfeit at once.

The Beegee Perfect Ink Eraser

The Beegee perfect ink eraser has no blade to keep sharp, it is a brush of extreme delicacy but infinite hardness, made from scientifically prepared fibres encased in a heavily nickeled solid brass holder, four inches in length and the thickness of a pencil. The brush is adjustable, and to get the best results should project through the holder about one-eighth of an inch.

You have never before been able to secure an eraser that was always in condition to do its work quickly and neatly, with the absolute certainty that your books would be neither defaced nor destroyed.

Beegee ink erasers.....Per dozen, \$7.20

"Dewar" Sanitary Paper Drinking Cup

Fig. No. 1

They are made of light weight, strong, waterproof paper, not paraffined.

The cups are packed perfectly flat, as Figure No. 1, occupying the least possible space, and from their peculiar construction, on being filled they immediately open and form a base on which to stand, as Figure No. 2. On being emptied they at once collapse to flat shape as before. This important feature is not to be had in any other cup.

Put up in packages of five each.

50 packs in a box.
